

Looking back to August 2012 when I was preparing to send my daughter to CofC as part of the REACH Program I realize there is not much difference in this year's preparations as she returns for her junior year. From the moment she and I had our first exposure to the REACH Program, while attending an Open House in the Spring of 2012, we knew we had found the perfect fit for her. She immediately knew that this was the perfect program for her since she would be getting the extra support she needed while being able to take traditional college classes and be fully integrated into campus life. I felt comfortable because I knew immediately that due to the attentive and caring staff that she (and I) was going to be ok!

As a parent of a child with intellectual disabilities, I had not thought she would be able to have a college experience, especially one away from home. We visited several other programs but none of them had the welcoming feel of the REACH Program. While I, of course, had some moments of trepidation, those were quickly overcome when I thought of the incredible staff and I knew they would take excellent care of my child.

My daughter has flourished under the care and guidance of the REACH Program. I wish the same for your child!

Laura
